## *"The Combination City"*

# PREFACE

### LOCATION

The city of Lenoir, situated in the foothills of the Blue Ridge Mountains and the gateway of the Blowing Rock region, was known as far back as just after the Civil War as a summer resort. Visitors to Blowing Rock always remembered Lenoir, for it was from here that they left the train and climbed 3500 feet in twenty-three miles to the top of Blowing Rock. In those days it was a long, hard climb—now with a hard-surfaced road it can be driven in an hour on high.

Manufacturing had not been thought of. Later, however, the Lenoir Furniture Company was formed and from that time industrial Lenoir started. In a brief span of time Lenoir has climbed to second place in the state and eighth in the United States in the manufacture of furniture. One of the phenomenal things in connection with this, is that all the capital used is "home capital." The Lenoir factories are modern in every respect and are enlarging and expanning constantly. The old saying that success means growth is well illustrated by these plants. Varied types, styles, and kinds of furniture are made, but bedroom and chairs predominate. The payroll is around $2,700,000 a year. Furniture, however, is not the only industry in Lenoir. There are seven cotton mills, a pad factory, a flour mill, a creamery, etc.

With Lenoir as a summer resort, a semi-agricultural market, and industrial center, it truly is a "Combination City."

### POPULATION

The population within the corporation limits of Lenoir, according to the U. S. 1930 census is 6,532. Several large mills are located just outside the city limits and this increases the population to 28,000 for Caldwell County. Population Greater Lenoir 11,521 (Directory Census).

### TRANSPORTATION

Lenoir is served by the C. & N. W. R. R., which is a branch of the Southern, and this city enjoys trunk line rates to and from all points and direct and quick service to points north, east, south and west. Modern well-paved highways radiate in every direction, which are utilized by a large trucking concern located in Lenoir.

(Continued on Page 6)

24783

# PREFACE (cont'd)

## LABOR

The textile and furniture plants are absolutely free from labor strikes. This is due to the fact that the laborers are native born, not inclined to float from one section to another and to the further fact that they are contented. Even in face of wage cuts they are loyal to their employers and do not complain.

Lenoirs' labor comes in a good part from the county surrounding Lenoir. It is an intelligent class, quick to learn, and turns out the work. At present there are available five hundred men and fifteen hundred women and girls for work. The reason for the large number of women is that Lenoir is a furniture center and the wives and daughters of the furniture workers are above the average cotton mill workers and do not want to work in a cotton mill, but yet desire work.

## TAXES

The tax rate of the City of Lenoir is $1.26 on each $100 (1936) valuation based on an assessment of about 70 per cent of the actual value of the real and personal property.

The county tax rate is 90c on each $100 (1936) valuation based on an assessment of about 70 per cent of the actual value of the real and personal property.

## INSURANCE

Lenoir has a good insurance rate and a well-equipped fire department.

## WATER

Lenoir is supplied with good pure, clear water which comes from a mountain stream. The supply is ample for any manufacturing enterprise desiring to locate in this section.

## SCHOOLS

Lenoir has three elementary schools and "A" grade high school. Separate schools are provided for the colored population.

## CIVIC CLUBS

Lenoir has a Lions Club, Kiwanis Club, Rotary Club. The Lions Club meeting on Monday evening, while the Kiwanis and Rotary Clubs meet on Friday.

## CONCLUSION

Lenoir is very well adapted for industry and offers many attractive features to prospective manufacturers. This is especially true of furniture and garment or hosiery plants. Cheap but intelligent and satisfied labor, near to raw materials, and yet within easy reach of the markets of the country. We will be very glad to furnish any additional information or, better still, present the facts in person.

GIVING NAMES OF HOUSEHOLDERS, THE NUMBER OF OCCUPANTS IN EACH HOUSE, AND DENOTING BUSINESS PLACES

VOL. II 1937-1938 VOL. II

NOTE—Streets are arranged in alphabetical order. All house numbers are arranged numerically following the description and location of each street, giving the name of householder. The number in parenthesis after name denotes number of occupants in each house.

Dash (—) before name denotes that number is wanting.

(*)—Purpose of star (*) in front of name is generally used to denote colored person or firm, but its use is so varied that we assume no responsibility for errors or the wrong use of same.

## FIRE ALARM BOXES

The best and quickest way to report a fire is to pull the nearest fire box. If you telephone, call number 3 and give exact location of fire. When making calls from alarm boxes, please remain at box until fire trucks arrive.

| Signal | Location |
|---|---|
| 1 | Test |
| 2 | Fire is out |

## Names Appearing in Black Letters

IN THIS DIRECTORY are the names of those people who accomplish things and are entitled to favorable consideration, if for no other reason than their public spirited support of measures which make for progress. They represent the energy and push so essential to the commercial prosperity of the City, and in dealing with them no mistake will be made. The publishers are honored in thus making them better known to the public.

PATRONIZE THEM!
